PROFILE

Hi, I'm Samiran Pal, a passionate web developer currently learning and exploring the world of front-end technologies. With a strong interest in HTML, CSS, and JavaScript, I aim to build visually appealing and user-friendly websites. I'm dedicated to continuously improving my skills and keeping up with the latest web development trends. Through my projects, I strive to solve problems creatively and deliver high-quality solutions

Apart from coding, I enjoy participating in hackathons and collaborating with other tech enthusiasts. I am always eager to learn new things and look forward to expanding my knowledge in both front-end and back-end development

PROJECTS

Amazon Clone (Frontend)

Link- https://amazon-owner-samiran.netlify.app/

- Using only Html and Css.
- This is my first ever frontend project.
- This project clears my fundamentals of html and css.

Image Search Engine Website

Link- https://image-search-engine-bysam.netlify.app/

- I complete this project with html, css, javascript, and Unsplash api.
- By this project I understand how to implement api in any website.

Personal Portfolio Website

I am currently working on it

- I create this project with Html, Css and JavaScript.
- I have a plan to use react js in this projct.
